### DETAILED ACTION

1. Claims 1-25 are pending in the application for examination.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The feature of ***“selecting an URL by an ACD”*** that claimed in independent claims 1, 14, 20 and 25 is not disclosed in the specification.

#### ***Response to Arguments***

4. Applicant's arguments filed on 21 July 2004 have been fully considered but they are not persuasive. In accordance with the Applicant's arguments in his Remarks, Bateman does not teach the feature of ***“selecting an URL by an ACD”*** that claimed in independent claims 1, 14, 20 and 25. Examiner agrees with this Applicant's point of view; however, it is not considered because the recited feature is not disclosed in the specification.
